

Jon Kenzie

Another town

I wish I could put a cloth over all their noise
Just let it settle down on their cheeky mouths
Now I can't speak for all them boys
But im sure I can't sing without a mouth

Coz I wont be here long
I've just come to play my song

I come to another town
Another I wont settle down
If it settles for me ill try not to bring it down
I try not to bring it down

Yeah im sitting here and playing in the sun
I play for you like a play for everyone
If you feel im begging take your feet and pass
But if you like them shoes sit and make them last

Coz I wont be here long
I've just come to play my song

I've come to another town
Another I wont settle down
If it settles for me ill try not to bring it down
I try not to bring it down
I try not to bring it down
I try not to bring you down
Don't want to bring you down

You say we've met twice I've never seen you once
Well I might recognise a little further on
Cause I can't ease my mind
Feels like their coming up behind

I run to another town
Another I won't settle down
If you settle for me ill try not to bring you down
I try not to bring you down
I try not to bring you down
I don't want to bring you down
I don't want to bring you down
