

Jon Kenzie

Catching the catcher

Every day she plays the catcher
She keeps me dangling on the line
Held in her current ever flowing
I'm sinking with her on my mind
Her bate never satisfies my hunger
But I revel in the pain on the hook
The lines held strong by my wonder
One word from her is all it took

I try to fight the desire
Not to cut myself on her wire
I've found a way to stay alive
Catching the catcher is the only way to survive

Plenty of fish in the sea
Flapping breathless all around me
Left with scars and no memories
But I'm sure that won't happen to me
No there won't be no scars on me

I try to fight the desire
Not to cut myself on her wire
I've found a way to stay alive
Catching the catcher is the only way to survive
I try to fight the desire
Not to cut myself on her wire
I've found a way to stay alive
Catching the catcher is the only way to survive

Catching the catcher is the only way to survive
Catching the catcher is the only way to survive
Catch me if you can
You better run run oh run
Catching the catcher is the only way to survive
Catch me if you can
Catching the catcher is the only way to survive

You know I'm going to catch the catcher
