Save us

*Now it's so much harder than You thought
To do what you wanted to do
When you're heart was in the right place
It was back in the day
And all the words that you spoke
Were shouted words of pride and hope*

*Now you've become
What you wanted to save us from
You've become what you wanted to save us from
You've become what you wanted to save us from
But who's gonna save us
Who's gonna save us from you*

*Sucking up and showing off
Has all but worn off
You could have hunkered down
But now it's so down it's near to off
You could have worked around
But you know you prefer to take the pound*

*Now you've become
What you wanted to save us from
You've become what you wanted to save us from
You've become what you wanted to save us from
But who's gonna save us
Who's gonna save us from you*
